MatchBOX Coworking Studio is a shared workspace in downtown Lafayette, Indiana. Think of a coffee shop mashed up with an office park in an old garage. It's full of places to sit and do your work, with all the amenities you need to get it done: 24-hour secure access, conference rooms, the fastest internet in town, and an unlimited supply of coffee and snacks.

Memberships are assigned to individuals, and a full year costs just $360, plus a one-time $99 setup fee. Though these memberships generally aren't transferable, they can be transferred in conjunction with the Purdue University Pathmaker Internship program.

After an applicant is accepted, an orientation is scheduled for the purpose of giving new members a tour of the studio, assigning a key card, setting up a profile in the MBX web management system, and signing and accepting the Membership Agreement and MatchBOX Manifesto.

MatchBOX also offers events to encourage professional and personal development. Monthly meetups focused on startups, tech, and creativity are hosted in the studio. Twice monthly, members-only meetups provide the opportunity for the MBX community to connect with other entrepreneurs, developers, designers, strategists, artisans, writers, makers, and innovators of all types.

MatchBOX and Purdue University

MatchBOX Coworking Studio is located just over a mile from Purdue University. The studio is accessible by foot via the Myers Pedestrian Bridge that connects Lafayette and West Lafayette. CityBus, Greater Lafayette’s public bus system, offers the Connector route from campus to downtown. This route is free for all riders, all the time. Purdue also offers Zagster bike share and Zipcar car share programs.
